

# PROFOIL PANEL SYSTEM

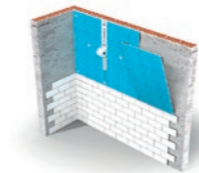

**Un prodotto e tante soluzioni**  
per una posa creativa, pratica e veloce.

**One product and many solutions** for  
a creative, practical and fast installation.

**PROFOIL PANEL** sono pannelli in polistirene estruso con una densità di 48 kg/m<sup>3</sup>, rivestiti su entrambi i lati con una membrana impermeabile all'acqua e al vapore. I pannelli, ideati per applicazioni interne, sono irrigiditi, oltre che dalla membrana impermeabile, dall'adesivo utilizzato per il suo fissaggio e sono progettati e testati per la resistenza e la durata nel tempo. Per tale motivo sono quindi ideati come supporto per la posa di piastrelle, per impermeabilizzare e per realizzare strutture e pareti portanti. I pannelli sono disponibili con uno spessore di 6.35 / 9.5 / 12.7 / 15.9 / 25 / 38,1 e 50,8 mm e una dimensione di 91,5 x 152,4 / 270 cm. PROFOIL PANEL, che consente di realizzare il lavoro in modo rapido ed economico, è idoneo in ambienti interni con funzione termoisolante a pavimento, rivestimento e soffitto. I pannelli possono essere applicati su muri grezzi, su vecchi sottofondi e pavimenti, su strutture fisse in legno e metallo, per la realizzazione di pareti divisorie, top per cucine, lavabi mensole e mobili di vario tipo.

**PROFOIL PANEL** is a range of panels in extruded polystyrene with a density of 48 kg/m<sup>3</sup>. They are covered on both sides with a water and vapour-proof membrane. The panels, suitable for indoor applications, are stiffened, by the waterproof membranes and the adhesive used for their fixing. The panels are designed and tested to have mechanical resistance and long durability. For this reason they are therefore suitable as support for laying the tiles, to waterproof and create structures and load-bearing walls. The panels are available in a thickness of 6.35 / 9.5 / 12.7 / 15.9 / 25 / 38.1 and 50.8 mm and a size of 91.5 cm x 152.4 cm / 270 cm. PROFOIL PANEL, which allows the work to be carried out quickly and inexpensively, is suitable for indoor application with a thermal insulation function on floor, wall and ceiling. The panels can be applied on rough walls, on old supports and floors, on fixed structures in wood and metal, for the realization of partitions walls, tops for kitchens, washbasins, shelves and furniture of different types.

**ESEMPI DI APPLICAZIONI PER I DIVERSI SPessori / EXAMPLES OF APPLICATIONS FOR DIFFERENT THICKNESSES:**

Spessore / Thickness 6, 9 mm

Spessore / Thickness 12, 16, 25 mm

Spessore / Thickness 25, 38, 50 mm

**PROFOIL TASSELLI**  
**PROFOIL DOWELS**

**PROFOIL RONDELLE**  
**PROFOIL WASHERS**  
(metallo zincato / zinc-coated metal)

**PROBAND NET**

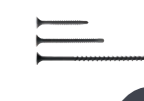

**PROBAND 150**

**PROBAND FIX**

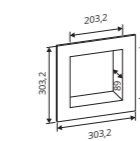

**PROFOIL VITI** (metallo zincato)  
**PROFOIL SCREWS** (zinc-coated metal)

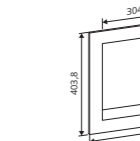

**PROFOIL PANEL NICHE**

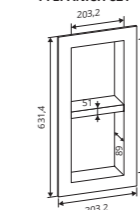

**PFLPANICH 88**

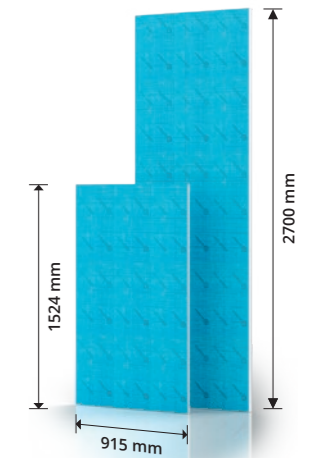

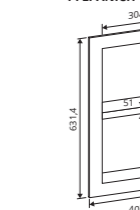

**PFLPANICH 1212**

**PFLPANICH 821**

**PFLPANICH 1221**
